A5[®]
DRILL

HIGH PERFORMANCE DIAMOND DRILLS FOR THE EXPLORATION INDUSTRY

The A5[®] is one of the most recognized diamond core drills worldwide. Now with over 400 units in service its proven itself in every country which mineral exploration is conducted, from the deserts of Sudan and jungles of Columbia to here at home in Canada.

The A5[®] has deep hole capabilities but is also simple to break apart and reassemble for fly projects. It easily mounts into a shack with rod handler capabilities making it one of the most versatile drills in the industry.

All of Zinex Mining manufactured drills are built in quantity with CNC cut and formed parts assuring top of the line quality. They are constructed using jigs that uphold the dedication to clients that all our fabricated parts will fit every drill manufactured. This means that all of our parts are interchangeable from one drill to another.

The A5[®] was designed by a team consisting of a Driller, Fabricator and Engineer. This enabled us to keep it simple for field repairs while using the best materials and fabrication techniques maximizing our power to weight ratio for the best in the industry.
